

## KABUKI 30

### TECHNICAL DATA SHEET

April 2023

Thanks to the friction technology, you can slide in your unfinished fabric or [Sashline](#) and trigger the release with a single push of a button. Its compact size allows you to mount the system wherever you want: in corners, upside down, on the floor or anywhere on stage. Especially when coupled with [HiSpeed Reveal](#) or used as a traditional Kabuki system, the options of the solo Kabuki module are endless.

#### » SPECIFICATIONS

- Max. working load: version A1 & A2: 20 kg / A3: 30kg
- Permanent holding - Manual release possible
- Holds fabric and 6 mm Sashline
- Direct power input
- Daisy chainable
